

SECLUSION High Strength Door System

Product datasheet

KG111 Hinge with KDH01 Security Bolts

KBP01 High Strength Strike Plates

Anti-ligature Disclaimer

Anti-ligature Disclaimer The anti-ligature design characteristics of this product are not intended to replace or substitute the need for necessary supervision of those who may be at risk, or for other necessary protective measures to be taken in the specific circumstances of usage. Kingsway Group, Inc. does not offer any products for sale as being 'ligature-free' and will not be liable for any claims arising from ligature attachment on it's products. It is the customer's responsibility to ensure that products purchased and installed are suitable for the environments they are installed in.

The SECLUSION door system provides the most robust solution for areas where service-users are required to be isolated in a safe environment. The SECLUSION door system is flush to the inside for patient safety and the staff can rely on the high strength 5-point locking system for security.

Technical Specs

Leaf Thickness:

54mm
